REAPING BENEFIT.

From the Experience of Paw Paw People.

We are fortunate indeed to be able to profit by the experience of our neighbors. The public utterances of Paw Paw residents on the following subject will interest and benefit many of our readers. Read this statement, no better proof can be had:

Mrs. Laura Webb, Main and Van Buren streets, Paw Paw, says: I have never used Doan's Kidney Pills myself, but I know of a case where they have been found very successful. Doan's Kidney Pills, procured at Longwell Bros' drug store, gave prompt and thorough relief from backache and other troubles, caused by weak kidneys. I will gladly give full particulars of this case to anyone who calls on me.

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Webb recommends. Foster Milburn Co., Props., Buffalo, N. Y.

SAVED HER ARM

Most people in Michigan will be interested in the case of Mrs. A. P. Brown of Dryden, N. Y., whose husband says: "My wife burned her arm so the muscles projected like a shelf. The arm was so stiff she could not straighten it. Physicians, failing to heal the arm, wanted to operate. We refused and treated it with Hanford's Balsam of Myrrh. She can use the arm extensively—Balsam of Myrrh saved the arm."

NO BAKING POWDER MORE WHOLESOME THAN ALUM POWDER

Washington, D. C.—Alum baking powders are no more harmful to a person than any other baking powders.

Such is the conclusion of the referee board of consulting scientific experts of the department of agriculture as the result of experiments to determine the influence of aluminum compounds on the nutrition and health of man. The report gives the results of three sets of extensive experiments on human subjects conducted independently by members of the board and was in response to questions put to it by the department of agriculture. The board's report was unanimous and was signed by Ira Remsen, president of Johns Hopkins university, Chairman; Russell H. Crittendon, professor of physiological chemistry in Yale university and director of the Sheffield Scientific school; John H. Long, professor of chemistry in Northwestern university; Alorzo E. Taylor, professor of physiological chemistry in the University of Pennsylvania; and Theobald Smith, professor of comparative pathology in Harvard.

This important decision makes it apparent that it is unnecessary to pay an exorbitant price to get pure and wholesome baking powder. The best baking powder in the world—which has been proven best by test and which is pure in the can and pure in the baking—can be purchased for the moderate price of 25 cents per pound.

One important difference between Devoe Lead and Zinc Paint and ordinary hand mixed or ready mixed Paint is a difference you will first notice in your pocketbook.

Where a given job will require, say, 15 gallons of ordinary paint, the work can often be well done with 10 gallons of Devoe; that's about the proportion usually.

The best of it is, fewer gallons make a better job of it; lasts longer, costs less, first and last. Whatever painting you pay for have it Devoe; be sure. Do you want our book about painting?
